HOMELESS YOUTH IN THE UNITED STATES: RECENT RESEARCH FINDINGS AND INTERVENTION APPROACHES

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.In this paper, the authors cite research indicating that youth may be the single age group most at risk of becoming homeless, yet comparatively little research has been done in the past decade on this vulnerable population. Some important progress has been made, including longitudinal studies on youth aging out of foster care. After reviewing the characteristics of homeless youth, the authors review recent research findings on the homeless youth population and interventions developed to address their housing and service needs. These include interventions directed at youth themselves (education, employment, social skills training) as well as family-focused strategies. The authors conclude with future directions for both research and practice.
