American Psychiatric Publishing. Paperback. Book Condition: new. BRAND NEW, Manual of Adolescent Substance Abuse Treatment, Todd Wilk Estroff, The terrible dangers of substance abuse are magnified during adolescence, when disrupting the development of critical physical, mental, emotional, and social skills magnifies the potential for physical and psychosocial harm. The three primary causes of adolescent mortality - injury, suicide, and homicide -- are all associated with substance abuse. These distinguished contributors -- all with extensive hands-on clinical experience, and some with first-hand experience as recovering substance abusers -- combine the exceptionally complex theory with the practice of diagnosing, evaluating, and treating adolescents with substance abuse disorders. Using clinical case vignettes to illustrate the difficulty of daily care for substance-abusing adolescents, the authors also include practical advice on how to select the best treatment for these patients.
