Torreya Volume 21-23

By Torrey Botanical Club

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921 edition. Excerpt: . two or three flowers next to the dark central one are so characterized. He believed that the latter did not make the umbel more conspicuous to insects, and while other investigators believed this flower to be neuter or sterile, he obtained seeds from it by fertilization. A micro-dissection made indicates that the seeds obtained from the purple flower are probably fertile, although the conclusive test would be germination. Darwin did not consider the dark central flower to be of any importance, but considered it instead to represent a former condition of the species where the central flower alone was female. Its position was held to be the consequence of the fact that when irregular flowers become regular or peloric, they are apt to be central, and such peloric flowers owe their origin to arrested development or reversion. He additionally comments that in other...
