CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 152 pages. Dimensions: 8.5in. x 5.5in. x 0.3in. Black and White Edition: This book makes obsolete most of the fundamental theories about the working of planet Earth. It proves through cause-and-effect as well as basic physics what drives the planet to spin about its axis and what makes its spin speed to vary. The book explains what configuration of magnetic fields are emanating from Earth's core to answer the true reasons behind the weakening of the magnetic field, global warming, climate change and reversal of the magnetic field force in Antarctica. Ancient texts and petroglyph enabled the establishment of a cycle of Earth changes of 3,562 years. The scholars who supported Joseph Goodmans decoding of the Mayan Calendar made an error. The end of a cycle of Earth changes, where calamities such as burgeoning earthquakes, epic flooding, heated oceans, and more, is not December 21st 2012. This book shares the correct date. The book has given the readers an unprecedented never ending experience. Every day in the news and over the internet and other media, there are articles about new Earth changes that are relentlessly escalating. Most news articles contribute to confirm the Earth's model that the author has built in this book and the drivers behind the changes. The same Earth's model was recently found to repeat itself over other planets of the solar system. It helps to explain Mars and answers why its ice cap is melting. It helps to explain why Venus and Saturn spin speed is slowing down. There can be no more excitement than seeing such a new planetary model to grow from more to more as days go by. Upon reading More Than 60 Minutes- When Earth Stands Still...
