Cecil Mullins, United States, 2012. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The African-Bush Pilot The debut autobiography by Cecil Mullins is an auspicious success from the very first page to the last. He tells the breathtaking odyssey of his life from a small town Southwest Virginia boy to a well known, highly regarded pilot who flies the aircraft he dreamt of as a young man. His writing style is fast paced, graphic and often gritty with an occasional side bar of humor and ribald commentary about the fairer sex he encounters during his highly charged, adventurous career as a Bush Pilot and his unpredictable forays with non-scheduled airlines. The book is a must read. The reader will feel as if he is in the cockpit with the Bush Pilot as he fights the elements, warfare, mechanical and equipment problems and violent weather. It is a great book, you will not want to put it down. Go out and get a copy and experience the thrill of what you find as you turn the next page, and the next. Reaching the pinnacle of his career by surviving unbelievable mechanical failures and mishaps, violent weather, flying into African civil wars and revolutions in the dead of night to evade missiles and gunfire were but a part of the life he chose to live. He survived and prospered by his intellect, courage and unparalleled skill as a top flight mechanic, flight engineer, co-pilot and finally pilot and Captain of his own craft.
