UNIVERSITY EDUCATION (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from University Education What, specifically, does a University exist for? One answer to this question might be gathered from the following words of the founder of an American University, I would found an institution where any person can find instruction in any study. Another, coming to us as a pure, clear echo from the world of ancient Greece, is suggested by the following passage from Plato's Republic: After this period, I continued, these choice characters, selected from the ranks of the young men of twenty, must receive higher honours than the rest; and the detached sciences in which they were educated as children must be brought within the compass of a single survey, to show the correlation which exists between them, and the nature of real existence. From these words of the modern American and the ancient Greek, respectively, there might, I say, and no doubt ordinarily would, be inferred two very different ideals of that higher education, of which - whatever it may be held to consist in - the University is on all hands held to be the instrument or the purveyor. According to the Platonic sense, the school or academy of Plato was itself a University, a University with but a single teacher, and that teacher none other than Plato himself.
