### ***Reviews***

*This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Trafford Publishing, Canada, 2004. Paperback. Book Condition: New. 200 x 126 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Warriors is the story of a Canadian fighter pilot whose operational flying career ended with his introduction to a headquarters staff job. He was engaged in the Cold War from his youth through an ever-changing career path. His military account begins as a raw recruit and the most junior member of the air force. As the story unfolds, the reader is taken through the author's career progression as a radar technician, his remuster to commissioned officer status and his training as a pilot in the air force. His experiences as a fighter pilot provide the layman an inside look at the right stuff and the thrills of operational flying combined with a complete season of formation aerobatics in a Mach 2 fighter aircraft. The author leads us through his uneasy transition to staff officer and his development in that role. He relates his three-year posting into the pilot training establishment and his participation in the eventual formation of the Snowbirds aerobatic team. In his final tour at National Defence Headquarters the author was in a position to witness first hand the deterioration of the military culture at the highest levels. He relates his struggles to maintain some semblance of military ethic in the routine conduct of his duties under ever deteriorating circumstances. This book puts the Cold War into a perspective as seen by those who lived through it. It identifies the 9/11 tragedy as the beginning of a new and frightening era. It recognises the World Trade Centre act of terrorism as a wake up call for a country that has allowed its politicians while looking inward, to savage defence budgets over the past thirty...
