BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 44 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. While the Department of Health and Human Services (HHS) has established a framework for protecting the privacy and security of Medicare beneficiaries prescription drug use information when used for purposes other than direct clinical care through its issuance of regulations, outreach, and enforcement activities, it has not issued all required guidance or fully implemented required oversight capabilities. HHS has issued regulations including the Health Insurance Portability and Accountability Act (HIPAA) Privacy and Security Rules to safeguard protected health information from unauthorized use and disclosure. Through its Office for Civil Rights (OCR), HHS has undertaken a variety of outreach and educational efforts to inform members of the public and covered entities about the uses of protected health information. Specifically, OCR has made available on its website guidance and other materials informing the public about the uses to which their personal information may be put and the protections afforded to that information by federal laws. It has also made available guidance to covered entities and their business associates that is intended to promote compliance with the HIPAA Privacy and Security Rules. This item ships from La Vergne, TN. Paperback.
