Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The position in history of Mary Queen of Scots is a paradoxical one. Her fame as a monarch lies less in her personality or achievements than in her position within the dynastic maneuvers and political-religious upheavals taking place in northwest Europe in the 16th century. Most monarchs spend their early years learning in preparation to rule and then spend the latter part of their lives wielding power and status, but Mary was thrust upon the throne when she was only a week old, and she ceased to be queen nearly 20 years before her death. Mary's was an unusual reign in a tumultuous period, and her tragedy was intertwined with her country's transformation. In Mary's case, she was a second cousin once removed of England's Queen Elizabeth I, which made her a rival for the throne. Mary was the granddaughter of Margaret Tudor, Henry VIII's sister, and her Catholicism made Mary the true and rightful Queen of England in the eyes of many Catholics and the Vatican. These facts, coupled with the realization that several English Catholics (especially rebels active in the Rising of the North movement) supported Mary, ardently made Elizabeth I uneasy. Mary also did not help herself when she married James Hepburn, 4th Earl of Bothwell, who was widely accused of raping her. The Scottish people rebelled, and Mary abdicated and fled southwards towards England.
